Coast Spas

Quality

- **COAST GUARD™ SHELL**
Coast Spas' unique shell design is comprised of multiple layers of hand-rolled Owens Corning™ fiberglass, a 1 ¼" angle iron for added strength with a lifetime structural warranty.
- **CABINET**
Our most popular cabinet is hand crafted using clear Canadian cedar, reinforced with corner supports and 2" x 4" bottom rails. We also offer maintenance free Coast Guard™ synthetic wood as well as our exclusive slate cabinets.
- **PUMPS**
Coast Spas' 20 amp, 7 HP Big Red Pumps are the most powerful in the hot tub industry. The variable force pumps have two added features; low amperage resulting in reduced energy consumption and a fan cooling system with patented cool air intake to extend life.
- **FILTRATION**
The Cyclonic Filtration System™ hosts up to 175 sq. ft. of microban bacteria inhibitor. The filter canister is housed outside of the spa water to eliminate the risk of dragging contaminants back through the hot tub. The result is pure, pristine water.
- **JETS**
Working together with experts from The Arthritis Research Centre of Canada, Coast Spas has developed the most therapeutic user-friendly jets in the industry. The exclusive Trillium Series Jets feature a triangulated handle so that anyone, even mobility-impaired users, can adjust water flow and pressure with ease.
- **ISO 9001:2000**
Coast Spas maintains this quality assurance certification by meeting an extremely high standard of business and manufacturing excellence.

The Collection

quality comes in many forms

ARUBA
180 US gal (684 L) · 59.5 x 83.5 x 30.5 in.
